HOW TO KEEP WARM AT NIGHT

1. **REMEMBER:** The sleeping bag doesn't heat you, you heat it. So use this rule, "Thickness is warmth", to keep this heat. If you're cold, add some more insulation (blankets, clothes, newspaper). Never use tomorrow's clothing in your bag.
2. **DO NOT SLEEP IN BOTTOM OF BAG:** Your breath contains water. If you close your bag with your head inside, then this water sticks to the bag. Wear a knit hat to keep your head warm.
3. **CHANGE CLOTHES:** NEVER sleep in wet clothes or what you wore that day. Even perspiration will chill you at night.
4. **GO TO THE BATHROOM BEFORE BED:** This saves you a middle of the night trip in the cold.
5. **DO NOT DRY "WET" CLOTHES IN BAG:** Moisture will travel from wet clothes to sleeping bag.
6. **PUT TOMORROW'S CLOTHES UNDER BAG:** This heats up clothes for tomorrow's cold morning and also provides more insulation. Put the clothes below the bag, never in the sleeping bag.
7. **FLUFF UP YOUR BAG:** Always fluff up bag before using to create the thickness important in keeping warm. Take your bag out of its stuff sack when you get to where you will be camping.
8. **MOST IMPORTANT, KEEP IT DRY:** Keep all your sleeping gear dry and follow these rules, and winter camp should prove to be a rewarding experience.

IMPORTANT STUFF TO KEEP IN MIND

1. Clothing alone does not make you warm; it is your body processes that keep you warm. Clothing merely provides the insulation to preserve your warmth.
2. Layered thickness is warmth.
3. Keep your torso warm so that it can send heat to the extremities.
4. Avoid sweating by ventilation.
5. Keep rain and wind out of your insulation.
6. Use your head. Keep it covered when you're cold; remove cap as you warm up to avoid sweating.
7. Strain one muscle against another to maintain metabolism.
8. Wool clothing is best but needs wind protection, synthetics are next best. Down is OK as long as it stays dry, cotton is a poor choice.
9. If your feet are cold, put a hat on.
10. Remember the word "COLD" - Keep your clothing:

Clean.
avoid Overheating
wear clothing Loose
and keep it Dry

It is always best to stay dry when camping in the snow, but you can expect to get wet and should be prepared. Have at least one complete change of clothing with you.

Boots or other shoes which are not waterproof will normally start getting the feet wet and cold after less than 15 minutes in the snow (depending on temperature, the colder it is, the longer the feet stay dry). Low top shoes will not keep the snow out of the shoes. Gaiters can be made from plastic bags and a strong tape like duct tape. Do not cover the bottom of you shoes with plastic, doing so will cause you to lose almost all of your traction (and you will fall down!).

WHERE TO BUY IT

There are lots of places to get camping equipment. Here are some suggestions:

Campmor Inc

810 N State Route 17
Paramus, NJ
(201) 445-5000

The best camping supply store because of its selection and the staff's knowledge and experience. Where to go for frame packs, sleeping bags and tents. Not open on Sundays.

Ramsey Outdoor Store Inc

240 N State Route 17 # 4
Paramus, NJ
(201) 261-5000

1039 US Highway 46
Ledgewood, NJ
(973) 584-7799

226 State Highway 17
Ramsey, NJ
(201) 327-8141

Has a good selection, but don't depend on the staff to be that knowledgeable. Bergen County stores are closed on Sunday.

K-Mart, Target, Sport Authority, Dick's, Cabela's etc.

All these stores carry camping equipment, but quality on bigger items (packs, sleeping bags, tents) questionable. Smaller items such as mess kits and eating utensils can be bought here. Store staff cannot always be depended upon. For quality and longevity of equipment, go to Campmor. Never buy larger items through mail order or online unless you really know what to buy.

If you are in doubt or have questions, call one of the troop leaders for advice.
